

LUMI SCULPT+

Non Surgical Body Contouring

THE LATEST TECHNOLOGY IN BODY SCULPTING

TWO POPULAR TREATMENTS IN ONE DEVICE

LumiSculpt+ offers a targeted approach to muscle toning and body shaping. This Device Combines Cryolipolysis and EMS Muscle Toning in one easy to use device. Offering clients the ultimate body contouring makeover.

FAST & EFFECTIVE RESULTS

Just ONE painless 30 minute treatment is equivalent to 20,000 crunches or squats.

ADVANCED TECHNOLOGY

The Muscle toning handpiece harnesses the power of High-intensity Focused Electromagnetic Energy through the skin, This creates a unique electromagnetic field that penetrates the skin to impact muscle tissue as well as fat.

Cryolipolysis, commonly referred to as fat freezing, is a nonsurgical fat reduction procedure that uses cold temperature to reduce fat deposits in certain areas of the body.

LUMI SCULPT+

Non Surgical Body Contouring
